Dear Gene,

The following is a copy of the message I sent to John Hebert.

Please contact me if you have any questions.

Best regards,

John Lublinkhof

Subject: Materials Change Request

Dear John,

I submitted amendment applications (dated June 20, 2013) for a materials change to the bait station for the following registrations:

12455-120 Tomcat Mouse Killer I
12455-142 Tomcat Mouse Killer XI

Unfortunately, we need to withdraw these applications since we made a decision to continue production and distribution with the original materials. I apologize for any inconvenience this may have caused.

In the amendment application for 12455-142, Tomcat Mouse Killer XI, I also requested approval for some additional optional marketing statements. The request is to include language indicating the number of mice that a 1/2 ounce bromethalin block can kill. We have already received approval in a letter from you dated April 1, 2013 for these statements for Tomcat Mouse Killer X, EPA Reg. No. 12455-138 (also a 1/2 ounce bromethalin block). We do not want to withdraw our request for these marketing statements. What is the best way to handle this? Do I need to begin with a new application for amendment or can you use what I have already sent?

I apologize for any inconvenience this may have caused. I look forward to hearing back from you regarding the optional marketing statements.

Thanks,

John Lublinkhof, Ph.D.
